

Business Requirements

1. Show two filters- Category, Region. These filters should have only relevant values.
2. The dashboard should have the title “Executive sales Performance”
3. The first chart should have the title “YTS KPIs” and should show the following- Donut of category Sales in each Region
4. The second graph should have the title as “Sales” and should show monthly sales per year. Make sure it is an area chart with proper formatting.
5. The third graph should the title as “Profit” and should show monthly profit per year. Make sure it is an area chart with proper formatting.
6. Fourth graph will show the Sales and target Achieved
7. Do proper formatting so that it can look professional

Tableau Project Expected Solution:

After creating the dashboard, we should be getting the dashboard something like below-
